

Dear Marketing Director/Administrator:

About Senior Solutions is excited to work along side with you to refer and place our clients in your Residential Care Facility for the Elderly. We are not the average Placement Service. **We want to see you succeed.** *In addition to placement, we offer services for RCFEs in marketing/sales training, in-services, event planning, satisfaction surveys or private consultation for your community.*

We work closely with families and seniors through private consultation or a highly professional Geriatric Evaluation to find the most appropriate community for the senior to advance their quality of life.

We strive to provide as much information available on each of our referred clients so when they come to you to tour, you have the following information:

- **Senior's Name, Age, Care Need, Budget, Social Interests & Special Requests**

Our newest exciting endeavor is the Automated Discharge Planners Program (ADPP). **It will be of great importance to add an email address to your profile that will be permanent to your community.**

You can find further instructions and sign up as a Provider to the program right now. About Senior Solutions is very pleased to be advancing into this new technology and look forward to making this a simple process.

Please feel free to contact us regarding our RCFE SERVICES or other if you have any additional questions at **626-359-0108**. Please fill out the Referral Fee Contract and fax it back to **626-359-0077**. That will allow you to access ADPP to enter your Profile.

We look forward to a very successful relationship.

Sincerely,

Mary Winners
